EDUCATION

Chapman University

B.S. in Business Administration, Finance Emphasis; B.A. in Economics; Minor in Analytics

Orange, CA

Expected May 2027

Relevant Coursework: Econometrics; Introduction to Data Science; Statistical Models in Business; Quantitative Methods in Finance; Calculus with Applications; Computer Science I; Advanced Experimental Design and Statistics, Enterprise Data Management, and Auction and Market Design (in progress)

RESEARCH EXPERIENCE

Chapman University Fowler School of Engineering

Summer Research Assistant

Orange, CA

May 2026 - Aug 2026

- Built **reproducible R workflows** for **Cox survival modeling** on **longitudinal MIT battery data**, spanning **preprocessing, counting-process formatting, train/test splits**, and **baseline comparisons**.
- Contributed **literature review, code cleanup, reproducibility checks, figures, tables, and results writing** for **federated survival analysis** research.
- Documented **modeling limitations** and aligned next steps in **weekly faculty reviews** of methods, code, and results.

TEACHING EXPERIENCE

Chapman University Fowler School of Engineering

Teaching Assistant, CPSC 392 Introduction to Data Science

Orange, CA

Jan 2026 - May 2026

- Supported **~70 students** across **two sections**, grading quizzes, developing **rubrics**, and giving written feedback on **statistical and machine-learning** work.
- Ran **twice-weekly office hours**, coached students through **KNN, K-means, and regression interpretation**, and proctored makeup exams.

Student Instructor

Jun 2026

- Co-instructed **Inside AI: Learn, Build & Use AI Responsibly**, a **hands-on workshop** using **Google Colab** exercises in **image classification, transfer learning, neural style transfer, and LLMs**.
- Helped students configure **coding environments** and complete interactive exercises while integrating **ethical, responsible AI** use.

QUANTITATIVE PROJECTS

US Market Intelligence Terminal

2026

- Built and deployed a **market-data platform** covering a canonical universe of **13,136 U.S. securities** with **scheduled refreshes, validation gates**, and monitoring.
- Integrated **Alpaca IEX** market data and **SEC company facts** with **point-in-time controls, schema validation, automated workflows, and cloud storage**.

S&P 500 Alpha Driver Study

Dec 2025

- Built a **Bloomberg-sourced dataset** of **443 firms** and engineered **valuation, profitability, size, and risk factors**.
- Applied **OLS/LASSO ($R^2 \approx 0.28$)**, **logistic classification (ROC-AUC ≈ 0.75)**, and **PCA with K-means ($\sim 57\%$ variance explained)**.

Automated DCF Stock Valuation Engine

Dec 2025

- Built and deployed a **Python/Flask DCF tool** on **live financial data** with automated projections, **CAPM-based cost of equity, WACC, terminal value**, and user-defined scenarios.

Live Entertainment Intelligence Platform

2026

- Built an **independent decision-support system** spanning **14,023 events** and **114,167 artists** across **Ticketmaster, MusicBrainz, ListenBrainz, and Wikidata**.
- Processed a **24.7M-listen pilot**, matched **14.3M records**, and produced **508,894 capped artist-affinity edges** for **market and audience analysis**.

Commercial Real Estate Analytics Game

2026

- Built a **classroom simulation** for **data quality, SQL, property valuation, bidding**, and investment decisions with professor controls and automated participants.
- Tested **deal-cost** and **capital-reserve mechanics** across **240 seeded simulations** to improve instructional balance.

FINANCE EXPERIENCE

Fourth Exit Capital

Investment Research Analyst

Austin, TX

May 2024 - Aug 2024

- Screened and analyzed ~**20 CIMs per week** for acquisition fit across **lower-middle-market** opportunities.
- Built **valuation frameworks** on **EBITDA, free cash flow, operating margins**, and **WACC**, comparing targets on **normalized financial metrics**.

Chapman University Investment Group

Student Analyst

Orange, CA

Feb 2024 - Present

- Analyze public equities for a **student-managed fund** with **\$50,000 AUM** using **financial statements, valuation models, Bloomberg** data, and industry research.
- Write **investment theses** and present recommendations to committee, pairing **quantitative evidence** with company and industry analysis.

TAMID Group at Chapman University

Fund Analyst and Founding Chapter Member

Orange, CA

Mar 2024 - Sep 2025

- Researched public companies and contributed to **student investment analysis** and **stock-pitch** work as a **founding chapter member**.

Director of Fundraising

Sep 2024 - Sep 2025

- Raised ~**\$3,000** for chapter programming and coordinated **fundraising execution** for a new campus organization.

LEADERSHIP AND SERVICE

Alpha Epsilon Pi - Chapter Leadership

Sep 2023 - Present

- Progressed from **Pledge Class President** and **Brotherhood Chair** to **Vice President** and **Social Officer**, leading member support, operations, programming, budgeting, and coordination.
- Led a **nine-position minor board**; currently manage a **five-member team** and ~**\$7,000 semester budget** for ~**15 events per semester**.

ADDITIONAL WORK EXPERIENCE

FunBox - Back Shift Team Lead

May 2024 - Aug 2024

FunBox - Team Member

Summer 2023

Burlington

Aug 2022 - May 2023

TECHNICAL SKILLS

Programming: Python (pandas, NumPy, scikit-learn, statsmodels, Flask), R, SQL

Methods: OLS, LASSO, logistic regression, PCA, clustering, classification, Cox survival models, factor analysis, train/test evaluation

Finance and Data: Bloomberg/BQL, WRDS/Compustat, FRED, SEC EDGAR, Financial Modeling Prep, Alpaca IEX, Excel

Tools: Jupyter, RStudio, Git, GitHub Actions, VS Code, Cloudflare R2

CERTIFICATIONS AND AFFILIATIONS

Credentials: FINRA SIE; Applied Statistical Analysis, Chapman University (December 2025); Bloomberg Market Concepts, Finance Fundamentals, ESG, and Spreadsheet Analysis

Affiliation: Omicron Delta Epsilon International Economics Honor Society, General Member

Honors: Presidential Scholarship; Dean's List (Spring 2025, Fall 2025)

INTERESTS

Basketball, especially college basketball; Bridge; Event planning; Live music and concerts; Travel; Personal investing and prediction markets; Startups and software side projects
