EDUCATION

Chapman University

Orange, CA

B.S. in Business Administration, Finance Emphasis; B.A. in Economics; Minor in Analytics

Expected May 2027

Relevant Coursework: Econometrics; Introduction to Data Science; Statistical Models in Business; Quantitative Methods in Finance; Advanced Experimental Design and Statistics (in progress)

TECHNICAL PROJECTS

US Market Intelligence Terminal

2026

- Built and deployed a **market-data platform** covering **13,136 U.S. securities** with **scheduled refreshes**, **validation gates**, and monitoring; integrated **Alpaca IEX** and **SEC filing** data.
- Implemented **point-in-time controls** and **schema validation** to contain **lookahead bias** and **stale-data risk** across **automated refreshes** and **cloud storage**.

S&P 500 Alpha Driver Study

Dec 2025

- Built a **Bloomberg-sourced dataset** of **443 firms** and engineered **valuation**, **profitability**, **size**, and **risk features** for cross-sectional analysis.
- Ran **OLS/LASSO** ($R^2 \approx 0.28$), **classification** ($\text{ROC-AUC} \approx 0.75$), and **PCA with K-means** ($\sim 57\%$ variance explained) to evaluate cross-sectional return relationships.

QUANTITATIVE EXPERIENCE

Chapman University Fowler School of Engineering

Orange, CA

Summer Research Assistant

May 2026 - Aug 2026

- Built **reproducible R workflows** for **Cox survival modeling** on **longitudinal MIT battery data**, spanning preprocessing, **counting-process formatting**, **train/test splits**, and **baseline comparisons**.
- Contributed to **literature review**, **results writing**, and **figures and tables** for **federated survival analysis** research, documenting **model limitations** and **reproducibility steps**.
- Presented methods, code, and results in **weekly faculty reviews**, aligning **reproducibility priorities** across the research team.

Teaching Assistant, CPSC 392 Introduction to Data Science

Jan 2026 - May 2026

- Coached **~ 70 students** across **two sections** through **K-nearest neighbors**, **K-means clustering**, and **regression interpretation** in **twice-weekly office hours**.

FINANCE EXPERIENCE

Chapman University Investment Group - Student Analyst

Feb 2024 - Present

- Analyze public equities for a **student-managed fund** with **\$50,000 AUM** using **financial statements**, **valuation models**, **Bloomberg** data, and industry research.
- Develop written **investment theses** and present recommendations to a committee, combining quantitative evidence with company and industry analysis.

Fourth Exit Capital - Investment Research Analyst

May 2024 - Aug 2024

- Screened and analyzed **~ 20 CIMs per week** for acquisition fit, exercising **investment judgment** across **lower-middle-market** opportunities.
- Built **acquisition-screening frameworks** using **EBITDA**, **free cash flow**, **operating margins**, and **WACC**; compared opportunities on **normalized financial metrics**.

SKILLS AND CREDENTIALS

Programming: Python (pandas, NumPy, scikit-learn, statsmodels), R, SQL

Methods and Data: OLS, LASSO, logistic regression, PCA, clustering, Cox models; Bloomberg, WRDS/Compustat, SEC EDGAR, Alpaca IEX

Tools: Excel, Jupyter, RStudio, Git, GitHub Actions, VS Code, Cloudflare R2; FINRA SIE

Honors: Presidential Scholarship; Dean's List (Spring 2025, Fall 2025); Omicron Delta Epsilon, General Member

Interests: College basketball; Bridge; Event planning; Live music; Travel; Investing and prediction markets; Startups/software
